## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 6, 10, 11 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Majima. In Figures 13 and 14 and column 9, line 1 through column 10, line 21, Majima discloses determining fuel property using temperature and pressure in fuel container 41. The container has a tank ventilation valve that is closed during pressure measurement. As noted in column 9, lines 47-61, the pressure increase in the tank 41 which is actually caused by the evaporation of fuel, or gas emission characteristic value, is calculated. This characteristic value, in addition to fuel temperature, is used to determine if the fuel is "light" or "heavy", as noted in column 10, lines 5-9. The fuel property is used to adjust fuel injection amount.

### ***Allowable Subject Matter***

Claims 3-5, 8, 9 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments filed February 6, 2006 have been fully considered but they are not persuasive. Majima determines fuel property using the change in fuel tank pressure caused by fuel evaporation, or gas emission characteristic value, as noted above.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
